This well-kept home features 4 bedrooms and 3 full bathrooms, with 1,776 square feet of living space on the main floor, and 1,750 square feet of finished space in the basement, bringing the total living area to 3,526. Built in 2002, this home has recently been through several updates, and remains very well maintained. All rooms in the house have been freshly painted, and the 16'x16' deck in the back of the house has been recently stained, and a new rail/staircase has been added. Inside Features: The master bedroom features a walk-in closet and a private full bathroom, complete with separate tub and shower. The main floor living room offers great views to the native grass fields and timber ridges to the south, as well as a propane fireplace. The downstairs living room sets up perfectly for a man-cave or movie theatre.
