This unique property provides the best of two worlds. The setting gives the feel of living in the country, while in reality, it's just a few blocks from downtown Keosauqua. Imagine eating breakfast in your kitchen and catching a clear view of deer frolicking near the creek that runs through the yard.

The lower level of this two-story house features a sunken living room with multiple windows for great natural light, a dine in kitchen, a dining room that has ample space for a large table and built-in china closet. The family room is 13' X 32' and is designed for gatherings, but also has a hidden laundry area. The master bedroom is on this floor and includes an adjacent office/dressing room.

A tunnel was built from the lower level to a connected inside lap swimming pool/garage. This building also has a kitchenette, lounge area, shower room and even a putting green.

The second level consists of three bedrooms, a bathroom, a hall closet, and has an outside exit.

Another interesting feature to this property is the historic three level barn, built in the 1880's. The lower level was a stagecoach stop in the early days. Aside from being picturesque, this barn provides bountiful storage and a visual connection to the lives of our ancestors.
